Dear Sir:

I, Anne Brown, declare that I am authorized to execute this Terminal Disclaimer on behalf of Athersys, Inc., at 11000 Cedar Avenue, Cleveland, Ohio 44106.

I further certify that Athersys, Inc., is the owner of the above-referenced patent application and U.S. Patent No. 6,623,958, by virtue of Assignment document filed from inventors John J. Harrington, Bruce Sherf and Stephen Rundlett to Athersys, Inc., recorded at Reel No. 010064, Frame No. 0420, in Application Serial No. 09/276, 820, which the above-referenced application and U.S. Patent No. 6,623,958, are divisional applications of.

Pursuant to 35 U.S.C. §253 and 37 C.F.R. §1.321, Athersys, Inc. hereby disclaims the terminal portion of any patent granted on the above-identified application, which would extend beyond the expiration date of the full statutory term of U.S. Patent No. 6,623,958, issued

September 23, 2003. Athersys, Inc., also hereby agrees that any patent granted on the present application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to U.S. Patent No. 6,623,958. This terminal disclaimer applies to any patent granted on the present application and is binding upon the grantee, its successors or assignees.

Athersys, Inc. does not disclaim any terminal part of any patent granted on the present application prior to the expiration date of the full statutory term of U.S. Patent No. 6,623,958, in the event that U.S. Patent No. 6,623,958 expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutory disclaimed in whole or terminally disclaimed under 37 C.F.R. §1.32(a), has all claims canceled by a reexamination certificate, or is otherwise terminated prior to expiration of its statutory term as presently shortened by any terminal disclaimer.
